Request to Review Scott Air Force Base Quality Assurance
Project Plan

William D. Franz, Chief
Environmental Review Branch

James Adams, Jr., Chief
Quality Assurance Office

EPA has been requested to review the Quality Assurance
Project Plan for the Scott Air Force Base in Belville,
Illinois.

Please review this report with regard to your area of
expertise and provide the Environmental Review Branch with
your comments. Your comments will be incorporated into our
reply to the Air Force. Your comments should reach me by
February 15, 1988.

The Air Force has requested that we expedite our review; if
you can, we would appreciate a quick review on this quality
assurance project plan.

The review of the report should address the adequacy of the
QAPP to offer valid sampling results and compliance with EPA
standards. Please call Claude Brogunier of my staff at
3-6704, if you have any questions.
